

WP-102

Universal Power Socket Wall Plate

Product Overview

A compact universal power socket for professional AV, office, meeting-room and presentation installations. Supports common plug types and a wide AC input range.

Electrical Rating
100–240V AC • 50/60Hz • 10A

Key Highlights

- Universal power socket compatible with multiple plug types (India, US, UK, EU).
- Supports a wide input range of 100–240V AC, 50/60Hz.
- Rated for up to 10A, suitable for most office and AV equipment.
- Durable and fire-resistant construction for safe, long-term use.
- Compact wall plate design for clean and professional installation.
- Flush-mount compatibility with standard electrical back boxes.

Installation / Connection Flow

Realistic installation illustration for product documentation. Actual electrical wiring must be performed by a qualified professional and follow applicable local standards.

Installation & Safety Notes

- Installation should be performed by a qualified electrician or trained professional.
- Switch off and isolate the AC supply before installation or servicing.
- Use a suitable standard electrical back box and ensure the plate is securely mounted.
- Do not exceed the 10A rated load.
- Verify supply voltage and wiring before connecting equipment.
- Use the product only within the specified 100–240V AC, 50/60Hz range.

Technical Specifications

Specification	WP-102
Product Type	Universal Power Socket Wall Plate
Input Voltage	100–240V AC
Frequency	50/60Hz
Rated Current	10A maximum
Plug Compatibility	India / US / UK / EU plug types
Installation	Flush-mount / standard electrical back box
Construction	Durable, fire-resistant construction
